

C O N T E N T S

AUTOTRANSPORT MEANS

<i>Turenko A., Shuklinov S., Verbytskiyi V.</i> Stability evaluation of wheeled vehicles adaptable braking control system	7
<i>Turenko A., Uzhva A., Sergiienko A.</i> Stand for vehicles passive safety research	12
<i>Podrigalo M., Potapov N.</i> Movement of rigid automobile wheel at action of twisting moment and pushing force	14
<i>Rabinovich E., Volkov V., Belogurov E., Beloshitskiy V.</i> Measurement of Chevrolet Aveo car motion resistance by coast-down method.....	18
<i>Sarayeva I., Sayenko R.</i> Assessment of vehicles braking efficiency on roller stand using Bosch equipment	23
<i>Dushchenko V., Kumosin N.</i> Use of an electromagnetic field for controlling of vehicles suspender performances	27
<i>Kluchka Yu.</i> Determination of characteristics of hydrogen tank in vehicle at temperature range of 20–32 K.....	32

PERSPECTIVE OF INTERNAL COMBUSTION ENGINES

<i>Abramchuk F., Kabanov O., Kuzmenko A., Lipinskiy M.</i> Knock criterion in gas engine with high-energy ignition system	37
<i>Avramenko A.</i> Improvement of ecological parameters of the high-speed diesel engine due to multiphasic injection of fuel.....	43
<i>Strokov A., Kondratenko A.</i> Accounting estimation of the hydraulic resistance of the filter module of hard particles of high-speed diesel engine	48
<i>Marakhovsky V.</i> Calculation method of octane number determination of gasoline ethanol mixture	54
<i>Bgantsev V.</i> Increasing efficiency of water steam condensation from exhausted gases of diesel engine of exhaust free motor transport power installation	58
<i>Zhylin S., Volkov D., Zhylina L.</i> Investigation of choice of unseparated combustion chamber of VAZ-341 diesel engine	62
<i>Vrublevskiy A.</i> Rationale for patterns and choice of parameters fuel pump for accumulating diesel fuel equipment.....	69
<i>Voronkov A., Nikitchenko I.</i> Vehicle with pneumatic power unit on basis of VAZ-2104 motor car	75
<i>Levterov A., Savitsky V., Levterova L.</i> Experimental researches of motor qualities mixcher biodiesel fuel	81

TRANSPORT SYSTEMS

<i>Gorbachiov P., Skoryk A., Fursenko I., Kravchuk O.</i> Model of accounting of probability of reverse loading at the choice of direction of transportation of load.....	85
---	----

<i>Kobzar J., Poletaykin A., Shira G.</i> Conception of automated road traffic control system on area of street-road network.....	91
<i>Gorbachiov P., Makarichev A., Svichinskaya O., Svichinskiy S.</i> Analysis of up-to-date models of route discrete choice by passengers	97
<i>Shramenko N.</i> Development of measures to increase service quality of owners on terminal complex	104

GENERAL PROBLEMS OF AUTOMOBILE TRANSPORT

<i>Turenko A., Polyanskiy A., Luzan S.</i> Integrated technology of gasothermal evaporation coatings and method electrospark legion.....	109
<i>Gurko A.</i> For research of Lyapunov function properties in control system state space	114
<i>Doly G., Mazanov V., Nakonechni O.</i> On the possibility of using retro-reflective coatings in the automobile vibration diagnostics	120
<i>Bogomolov V., Zhdaniuk V., Bogomolov S.</i> Universal method for developing linear viscoelastic structural models	125

MECHATRONICS

<i>Aleksiyev V., Borisenko A., Vidmish A.</i> Intellectualization of transport machinery systems and enterprises.....	132
<i>Nikonov O., Podolyaka O., Ulko V.</i> Automobile neurobionics on the basis of simulated evolution methods	136
<i>Sergiyenko O.</i> Improvement of dynamic triangulation method 3D resolution for robot navigation	141
<i>Serikov G.</i> Prospects of measuring elements application in automobile appendices.....	148
<i>Serikov G.</i> Functionality of accelerometers in electronic systems of the vehicle	152
<i>Serikova I.</i> Information-measuring control system of movement dynamics of the vehicle	155
<i>Serikova I.</i> Urgency and prospects of integrated control system of vehicle's dynamics	158
